NOTE: The Non Final Office Action which was mailed from the PTO on 6-17-04 was in error. This Office Action was for a different unrelated application (that also happened to have 20 claims) that had the wrong serial number placed on the top of all of the mailed papers. The examiner apologizes for this error. The following is a restriction requirement based on the original claims filed, not the claims which were amended and mailed to the PTO on 9-20-04.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, drawn to a conveyor apparatus, classified in class 198, subclass 496.
 - II. Claim 12-20, drawn to a agricultural harvester with a crop removal system and method, classified in class 56, subclass 16.5.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a belt cleaning conveyor as opposed to an article cleaner or separator. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3651

4. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas A Hess whose telephone number is 703-308-3428. The examiner can normally be reached on M-Thurs 5:30 - 4:00.
